- Oxford Public School, Ranchi
Primary Schooling
Completed in 2016

About Me

A full-stack developer contributing to reliable and scalable software applications. I've built services from the ground up, developing robust backends and designing captivating UI/UX interfaces. My startup experience has honed my adaptability and deadline-driven work ethic. I thrive on collaborative teamwork, combining technical prowess with a commitment to constant learning.

Professional Experience

Swym Technologies Private Limited (swym.it)
2022 July – Present

- Hands-on experience in developing Shopify apps, and enhancing e-commerce for shoppers and merchants through seamless integration and customization.
- Played a pivotal role in enhancing our company's Shopify apps by seamlessly integrating external platforms such as Gorgias CRM and Yotpo, boosting the app's functionality and offering merchants an enriched e-commerce experience.
- Successfully automated a manual workflow, reducing app installation time from days to minutes.
- Tasked with the responsibility of ensuring the smooth migration of data across different tiers and overseeing the efficient import of customer data into our systems.
- Currently contributing to the development of scalable service abstractions, empowering developers to seamlessly integrate third-party platform solutions and significantly enhancing overall application functionality.

Swym Technologies Private Limited (swym.it)
2022 Jan – 2022 July (Internship)

- Designed and implemented a customized tool automating the customer data import process, resulting in a substantial boost to the productivity of the customer support team.
- Resolved bugs spanning both frontend and backend services of the Wishlist Plus app, contributing to the seamless functionality of the systems.

Achievements

- 2023 Nominated for the Best New Swymmer Award
- 2023 Two times Swym Demo Day Winner
- 2023 Swym Hackathon Runner Up
- 2022 Swym Hackathon Winner
